Dear Impact Central Illinois Members,

On behalf of Camp Big Sky and our campers, I would like to extend our heartfelt gratitude for your generous \$25,000 Inspire Grant toward the installation of an elevator lift in our Learning Center and Lodge.

This significant addition is not just a structural improvement but represents our commitment to inclusivity and accessibility for individuals with disabilities. Your support has been instrumental in helping us achieve our goals and we are deeply appreciative of your trust in our mission.

With the installation of the elevator and finishing the lower level of our Learning Center, we are excited to serve larger groups for overnight stays and effectively double our capacity for our education programs. This increased capacity will enable us to reach more participants, providing them with valuable opportunities for learning, social integration, and personal development.

We thank you for the funding to facilitate access to our facilities and enhance the overall experience for our campers of all abilities and their families, friends, and caregivers.

Sincerely,

*Haven Kensinger*

Executive Director  
Camp Big Sky
